CAREER OBJECTIVES

A dedicated and aspiring Software Developer grounded in Computer Science fundamentals, including Data Structures and Algorithms (DSA) and OOPS. I am eager to leverage my proven proficiency in the MERN stack to join a dynamic team, building scalable, complex, and efficient software solutions while continuously exploring new development paradigms.

SKILLS

- **Programming Languages:** C, C++, Java, JavaScript, TypeScript, SQL
- **Web Technologies:** Node.js, MongoDB, React.js, Express.js, SpringBoot, Tailwind CSS, Zustand
- **Computer Science Fundamentals:** OOPS, Data Structures and Algorithms, DBMS, Operating System
- **Tools:** Git, GitHub, VS Code, Eclipse, Hoppscotch, Netlify, Render, Vercel, [Leetcode](#)

PROJECTS

- **AirBNBclone:** <https://air-bnb-clone-1-nhyv.onrender.com/lists>
*Developed a robust rental service platform engineered using a clear **MVC architecture**. The application features secure user authentication implemented via **Passport.js**, validation with **Joi**, and full **CRUD** operations. It demonstrates integration skills by utilizing **Cloudinary** for image storage and **Mapbox** for interactive location maps, with the full-stack solution deployed on **Render**.*
- **BastraCollections:** <https://bastracollectionsclient-um5z.vercel.app>
Constructed a modern e-commerce solution using **MERN technologies** that is secured with **JSON Web Tokens (JWT)** for user authentication. The responsive interface was built with **React.js** and styled entirely using **Tailwind CSS**. **Axios** was employed for efficient API interactions, successfully deploying the final product on **Vercel**.
- **FoodApp:** <https://foodapp-client-6dfq.vercel.app/>
Built a full-stack food delivery web app using **MongoDB, Express, React, Node.js, and TypeScript**. Implemented **JWT-based** authentication, restaurant creation & menu management, and core features like cart and order placement. Used **Zustand** for state management and **shadcn/ui + Lucide** for a responsive UI.

EDUCATION

- **Indira Gandhi Institute of Technology, Sarang** SEP 2024 – JUN 2026
Master of Computer Application (8.79 CGPA)
- **Pattamundai College (Utkal University), Pattamundai** NOV 2021 - JUN 2024
Bachelor of Science (Physics Hons) (8.04 CGPA)
- **Pattamundai H.S. School, Pattamundai** JUL 2019 - JUN 2021
+2 Science (PCMB) (64%)
